Following the untimely death of her beloved mother, Rowan, a witch living in the sleepy land of Onyx, finds herself in a very dark and lonely place. Her adoptive father hasn't been doing too well lately as well, with odd things happening in their home. That's when Rowan receives an intriguing note in the mail. Written by someone else with the same last name as hers. Her mother. However, who is this mystery person claiming to be Rowan's mother? How can this be? The earth beneath the land of Onyx has been quaking, very possibly the result of supernatural forces. The non-witches fear this phenomenon. Could there be a link between the ominous tremors and the note? Who knows what's really going on. Should Rowan be cautious? What does her mother want? You'll have to find out.Find out the answers to these questions and more by going back to Onyx and starting a journey for an entirely new adventure. To The Rescue! is a story-driven, pet-focused action-adventure game, set in a comedic fantasy world where every day is a pup-saving adventure. Players take the role of a hound pet, who must lead the way to various goals, including collecting a certain number of eggs and getting enough pets on the pet adoption trail to save their owner from trouble. The game is set in a small town where your actions affect the lives of everyone you meet, including the pets, other humans and the objects and nature around you. Features: • Choose from six hound breeds, each with their own appearance and personality • A variety of diverse locations, including a jetpack-equipped dog coaster, a leper's paradise and more • Interact with the environment to solve puzzles and complete missions • Search for lost pets and adoption records in a variety of locations • Discover unique bonus content, including wallpaper downloads, custom ringtones and a downloadable instrumental score Available at the East Coast Store on release. BONUS TRACK: 1. Cooper's Waltz (Instrumental) This bonus track is only available on this release, and is only playable in the game's bonus chapter, "The Petition." It starts at the 1 minute, 12 second mark. Composition All tracks composed, orchestrated and produced by Joseph Williams. All vocals performed by Amanda Peterson and Kimberly Mears. Keyboards by William Vance; Percussion and strings by Spencer Purdy. Vocal and trumpet by Monty Jackson. All tracks engineered by Joseph Williams. Customer Reviews Dop Dog - September 22, 2011 (EA.com) The original soundtrack to To The Rescue! is at once reminiscent of Disney's The Little Mermaid, and a fusion of animation, jazz, and electronic music. The songs bring a sense of pure joy and pure amusement to the game, and between the innocent voices and the comical nature of the characters, I had to smile every time I came across a song playing in a store or a car or a restaurant. Don't let these songs deceive you into thinking they're for children, because To The Rescue! is a young adults game. It is no pleasant task rescuing countless dogs from various bad situations, but if you can find the humor in it, then you'll find yourself laughing throughout the game. The only criticism I have of the music is that the songs themselves are too short c9d1549cdd

What's new in RPG Maker MV - Gyrowolf's Galactic Music Pack:

"Totgeschwiegen" is a short story by E. T. A. Hoffmann from 1817. It is part of the collection of short stories Meistergeschichten (Master Stories). The short story is told as a monologue by the actor Colline, who is involved in a love affair with Narcissus, an actor's understudy. Colline is played by Carl Baumgartner, the protagonist of Hoffmann's novel The Nutcracker and the Mouse King (Die Vier Zigeunerfrauen); throughout the short story Narcissus is played by Gustav Schmeding, better known as The Evil Genius Escapade: Stranger Than Fiction. In the original German edition, the name Colline was changed in Droysen's edition to "Freigebig Colline". However, Droysen maintained the original title of "Totgeschwiegen" for Hoffmann's translations into English and French. Plot summary Colline is a famous actor who plays the role of Paul Spinola in Arnold's new play Der Trysilbund (The Three Crowned Kings). He is so in love with fellow actor Narcissus that he pretends he has locked the actor in a room and wants to celebrate his love by having a picnic. He buys a lot of expensive bread, meat and wine, and eats with sumptuous relish while Narcissus is hiding in the room. Later that night he can't sleep and instead of retiring to a hotel, turns into an outrageous couple where he passes off his absurd "secret" as a passion for Narcissus. He goes to the premiere of Der Trysilbund, and is at first moderately impressed with his friends' play, but when he recognizes Narcissus as the drowsy actor he fell in love with, he is infuriated by his own love. - You are a single adventurer trying to return home from his trip. - You must search for traces of the hero's journey, signs of his route. - You must help the heroes deal with the World Tree, the Nine Worlds and all their treasures. - To get to the 'Ninth heaven' you will have to collect the Moon's Boat and the Sun's Boat. - If you have 'tasted' the Earth's honey, they will reward you by giving you the Key of the Heart, which allows you to see the history of the hero's route. - The goal is to get home, so of course you'll have to collect many adventures and treasure to survive. STORY The Hero's Journey. Ninth Heaven Sun and Moon. World Tree Sail the Space-Boats. TRIVIA - The game will bring the Far North to life. The mythical stories of the Far North will come alive as never before! - This game is based on the prototype version, which includes bug-fixes and new features (read more about it at the very end of this page) - The story of this prototype is based on the myths of the Ancient Northern people. Read more about the prototype in the main article. - World Tree graphics are inspired by the famous Russian fantasy illustrations by Boris El'sev. - Two characters and four adventures will be available in the full version. The characters are based on the image drawn by Petr Vorona. - The music of the game is inspired by the musical score of the cultual classic movie, Alexander Nevsky. BACKGROUND One-Eye Kutkh was originally designed as a fun short-format movie. These movies are interesting, artistic and very effective since they can be seen with little effort. Such films are easy to pass over and, as such, they are often ignored. One-Eye Kutkh is intended to be another one of these movies, a movie that will get people's attention. In addition, this prototype is also a game that is intended to show the world of Northern myths and Northern fairy tales to Western eyes. What happens if the legends of Northern countries became reality? What if they came alive and walked around among us? What if this became a reality? This experiment has potential not only in the realm of games, but also in movies and literature. It could be very educational and bring many interesting ideas to life. In an attempt to bring Northern legends
