GURPS® Underworld (5th Edition Compatible) combines the gritty action of an RPG with the rules flexibility of a roleplaying game to create a dynamic roleplaying experience. GURPS is the most popular RPG game system in history, setting the standard for the roleplaying industry. Underworld is set in a technologically advanced world of magic, monsters, and intrigue. The world is populated by humans, warlocks, and monsters. Adventure A: Buried in the Vaults of the Ancients is a tale of ancient evil, a dark war between light and dark, and a fledgling alliance, made of the most unlikely of allies. What's included: A 5th Edition Rulebook (WoD, OSRIC, and 5E version included) The Underworld Lairs book An adventure: Buried in the Vaults of the Ancients What's Not Included: A list of optional rules, two-inch pegs, and an overlay sheet (for the other books) Character sheets (if you want them for your 5E characters) After playing a bunch of campaigns in the Underworld, I've created a series of adventures. The adventures are much shorter than the Underworld Lairs series of the last round, but they come with a ton of detail. You can use them alone, or use them as a campaign. The first adventure (A) is Buried in the Vaults of the Ancients. The adventure begins in a ruined cathedral. The players wake up, with no memory of how they got there, and a bunch of clues about their situation. They'll need to figure out who they are, and why they're in the catacombs. The second adventure (B) is The Kingdom of the Dead. The players are on a road trip with a realtor. They want to make sure the vacation rental property they're buying is safe. They happen to pass by an old mansion... and some strange things start happening. These adventures are available in PDF format. They take advantage of all the power of PDF text. You can print them out, read them anywhere, and easily read them on a small device. They come in a zip file with two books.
