Keywords: Windows 10, Wallpapers, Login screen, Spotlight Wallpaper Spotlight Wallpaper is a free wallpaper application that lets you view any image as your new background. For Windows 8 and Windows 7, Spotlight Wallpaper is a great alternative to Windows' default login screen. Keywords: Windows 10, Wallpapers, Login screen, Spotlight Wallpaper Pros Provides a login screen and a desktop wallpaper in one place Cons Requires the use of a file name Verdict Spotlight Wallpaper is a neat app that allows Windows users to enjoy some gorgeous wallpapers. The app has access to the user's files in temporary directories. It then takes these files and uses them to create a login screen. In other words, the app takes care of the process of converting a picture into a login screen. Being a free application, Spotlight Wallpaper is not only easy to use but also offers basic functions and options. Being simple, this app does an excellent job in helping users have a new login screen within seconds. The bottom line is that you do not need to do any of the settings manually. You can simply apply a picture you want, choose the default background, set your location and monitor the progress. This way, you do not have to get much involved in it and would still end up with a login screen that you can be proud of. Installation Spotlight Wallpaper can be downloaded and installed easily. In order to start using the app, you need to first unzip the setup file. Once that is done, just launch the program. In the next page, you need to select a picture file, a location to save it and the monitor to use. The app then creates a shortcut to the picture you selected and creates a corresponding desktop folder. After the process is over, you can just click on the wallpaper file to view it. Interface While it is not a complicated program, a few aspects need to be pointed out. When you start with the app, the first thing you will notice is the splash screen. As I said earlier, this screen is there to make it easier for the user to get to the main features of the app. Since the app is still in its early stages, the

Spotlight Wallpaper

Spotlight Wallpaper is an app that is all about making the transfer of wallpapers from one location to another a lot easier. It has a few options, some of which are very important to note. Firstly, you can create your own folder where you can keep the images. That way, you can access them whenever you like, without ever having to move them back. Secondly, you can have them automatically change from one to the next. Finally, you can also set up an alarm that will launch the app and change the wallpaper whenever you like. Great, we should be fine, right? Wrong! Spotlight Wallpaper isn't perfect. Firstly, you don't get to change the theme as a whole. That means, you're stuck with whatever color theme it sets itself. Next, it takes a while to load, which is rather annoying. Finally, it doesn't seem to work with specific folders. That means, if you have images in your Pictures folder, it will bring out images from elsewhere. Spotlight Wallpaper Pricing: It is free to download, but has some small ads which you will have to click through. Spotlight Wallpaper Download Link: Windows 10 S doesn't support many apps and drivers, which is why you probably can't download popular apps such as Spotify or Gmail. In this case, you should try Windows Store apps. They're built for Windows 10 S, not just regular Windows 10. Since they don't require your computer to use 3rd-party software, this will likely be a solution to all your Windows 10 problems. In this article we will talk about 3 common scenarios where Windows Store apps can help you and in some rare cases, it might even solve your Windows 10 problems.
