sey" fund, which provides grants to community organizations working on timely issues important to Latham and her district. "She's always focused on the current and I think the most important aspect of that is, we've got two incumbent congressmen in our district, Foxx and Rush, who are going to be running for president," said Erica Rumsey, an advisory board member. "What that does is put a priority on our issues." The beer excise tax went to the public discussion again last week when the Army Corps of Engineers proposed a limited suspension of the tax. The U.S. Senate has yet to take it up, but Erin Saunders, co-chair of the district's Green Party, said she thinks public support is still growing for a permanent repeal. "They're not looking at the reality on the ground," she said. "The tax isn't going away."/* Copyright The Kubernetes Authors. Everlasting Guilt takes place in the near future, where a mercenary corporation is trying to retrieve the 100 seals from the lost to keep the world safe. Every soldier has his or her own story to tell, the purpose of the player is to unravel the secrets behind the main character. As the game progresses you will get to uncovering the true meaning behind the seals and how all of this ties into a mystery regarding humanity, themselves. the main character is said to be powerful, since he doesn't have any details about his background. What I Offer I want to create a fresh experience to the dungeon-punk style games that have been done. I would like to take you on a journey filled with danger and twists where you explore different locations while solving puzzles and trying to find all the secrets the world has to offer. Why are we doing this? I would love to show other people what I can do and give it a try to do something different. I would also like to see it if people find it interesting to play a game I've worked on. Where Do I go from Here? This is where we're at currently. I'm in the need of a little bit of cash in order to continue playing this game, and do what I can for it. I need 1,000,000 \$ to do what I can with this project. This does not mean that I will be spending 100 hours a week on this game. I'll be maintaining this. However, I know this would have been cheaper if I would've just made a smaller game. Conclusion I hope you like the game I'm working on. I'm looking forward to hearing what you think about the game.

Thank you. -Martin
